## ● PROFESSIONAL SUMMARY

---

Flutter / Mobile App Developer experienced in building production-style mobile applications using Flutter, REST APIs, and modern state management.

Led the development of a full solar-energy service platform including customer, worker, and admin systems. Strong focus on clean UI, scalable architecture, and API-driven mobile apps. Background in software engineering with practical Agile project leadership.

## ● TECHNICAL SKILLS

---

- **Languages:** Dart, JavaScript, SQL
- **Frameworks:** Flutter
- **Architecture / State Management:** Bloc / Cubit, MVC, REST API integration
- **Tools:** Version Control (Git - GitHub), Figma, Postman
- **Mobile Development:** Responsive UI, JSON parsing, API integration, mobile debugging

## ● EDUCATION

---

### B.Sc. Software Engineering

Damascus University

2020 – 2025

Specialization: Mobile Application Development

## ● SOFTWARE PROJECTS

---

### Solar Energy Solutions Platform (Graduation Project)

Team Lead & Flutter Developer

- Led development of a **3-application Flutter ecosystem** (customer app, worker app, admin dashboard) for solar product sales and maintenance services. Developed a **customer mobile app** for browsing solar systems, requesting maintenance workshops, and purchasing equipment.
- Built a worker mobile app for managing service logs and an admin dashboard for operations management.
- Coordinated requirements, task distribution, and Agile progress tracking across the team.

Tech: Flutter, Dart, REST APIs, Git

**GitHub (User):** <https://github.com/Nasser117/Tayar-user>

**GitHub (Worker):** <https://github.com/Nasser117/Tayar-worker>

### Library Management Mobile App

- Built a Flutter mobile application enabling users to browse, rate, and purchase books.
- Implemented structured UI components and scalable navigation flows.
- Developed an admin moderation system for managing content and listings.

Tech: Flutter, API integration, Git

**GitHub:** <https://github.com/Nasser117/Techno-Library>

### Job & Freelance Marketplace App

- Designed and developed a cross-platform mobile platform for job postings and freelance collaboration.
- Implemented community discussion features and structured listing systems.
- Focused on intuitive UI and mobile-first usability.

## ● CERTIFICATIONS

---

- **Google UX Design Professional Certificate**
- **Google Project Management Professional Certificate**
- **Google IT Support Professional Certificate**
- **Entrepreneurship Strategy — HEC Paris via Coursera**
- **Cybersecurity Fundamentals Specialization — IBM**

## ● VOLUNTEERING EXPERIENCE

---

### **Syrian Association for AI and Entrepreneurship — Volunteer (Sep 2025 - Current)**

- Represent the association at fairs and exhibitions, introducing visitors to activities and answering questions.
- Support outreach and engagement efforts by providing clear information about programs and initiatives.

### **Damascus International Book Fair — Volunteer (Feb 2026)**

- Assisted in the preparation for the fair, managing inventory and logistical support.
- Guided visitors to bookshops and helped them locate specific books or sections.
- Provided on-site support to bookstores, publishing houses addressing requests and coordinating/providing maintenance assistance when needed demonstrating teamwork and ability to work under pressure.

## ● LANGUAGE SKILLS

---

Arabic — Native

English — Fluent (C2)
